Introduction

- What makes a song good? My opinion: Danceability
- How long is a typical song? 3.8 minutes
- How many songs make it to the top? 10 for 2017

Data

- In terms of danceability Kendrick Lamar wins with his song HUMBLE at a total of .904 (scale of 0-1). This song also claimed highest tempo at 150.02
- For energy we have Despacito – Remix at .815
- For Liveness we have Congratulations by Post Malone with a score of .212

Conclusion

- After looking at different aspects of music, I learned a better appreciation for artists.
- Gained an appreciation for the complexity and opinionated views of music.
- We found out how hard it is to do a project at the very last moment.
